## CONSULTATION OPTIONS

We pledge to customize both our consulting plan to you and our pricing to fit your needs.

Here are some models for you to consider.

**PHONE CONSULTING:** We do not charge for your initial phone call. If your needs are simple and can be handled by occasional phone calls, we would like to bill you \$50 per call, or more if the calls last over one hour.

**“SKYPE” CONFERENCE TRAINING:** We can customize a conference training session for your staff that utilizes the “skype” teleconference service available to most computer users. Your custom training outline can be emailed to you prior to the conference to facilitate note-taking and discussion. The “Skype” connection would facilitate direct question-and-answer communication during the training. We would suggest that this training option be billed to you at \$450 per day and would include free phone follow-up for two months.

**ON-SITE TRAINING:** This option allows us to provide you with arena training using your horses, to provide your staff with hands-on instruction of training exercise methods used in your veteran program. We would also provide classroom training on topics based upon your custom needs. We would suggest that this training be billed to you at \$900 per day plus travel expenses for up to 8 participants. If you required more than 8 participants, we would suggest bringing more staff with us to facilitate the arena training and bill you an additional \$450 per 4 additional participants. This On-Site Training option would also include free phone follow-up for two months.

**HOME SITE TRAINING:** We can offer you training at our home ranch using our facilities and 11 trained and experienced horses. We would suggest that this training be billed to you at \$450 per day depending upon the number of participants.
